DL SERIES

COMPARISON ANALYSIS

Model	DL1608	DL16S	DL32S	DL32R
	The first 100% wireless digital mixer. An affordable entry point into the Master Fader ecosystem in a desktop form factor.	A flexible stage-friendly design with benefits like built-in Wi-Fi, multi-track recording/playback, added FX engines and more.	Same great benefits of DL16S. Perfect for more complex applications, adding tons of inputs and outputs.	Delivers added features for professional production applications like Dante networking options, matrix mixing and DC16 compatibility.
